## EXPERIENCE

### Decagon, Lagos, Nigeria — *Software Engineer*

MAY 2023 - PRESENT

- ❖ Worked in a team of four developers to develop a restful web API for a book library application using ASP.NET Core, Entity Framework, and PostgreSQL.
- ❖ Implemented and maintained CI/CD pipelines using GitHub actions and Docker to containerize .NET Core applications and deploy them to Heroku.
- ❖ Led a team of software developer interns to work on different clients' applications, including an e-Wallet application and a flight booking web application using ASP.NET 6 and Angular 16.
- ❖ Actively participated in the daily stand-up meetings.

### Tek-Experts, Lagos, Nigeria — *Technical Support Engineer*

JUNE 2022 - APRIL 2023

- ❖ Delivered assistance by conducting research and effectively communicating expert resolutions for issues presented by Microsoft Partners, utilizing the Microsoft Dynamics 365 Business Central SaaS application.
- ❖ Sustained an impressive customer rating of 4.8/5 by establishing and nurturing a robust customer rapport.
- ❖ Recorded discoveries regarding problem resolutions and bug fixes, encompassing the documentation of ICMs raised for urgent and critical cases.
- ❖ Collaborated with the Points of Contact (POCs) to facilitate the onboarding process for new team members.
